

Complete each item on the checklist for successful outcomes and smooth production.

1. ☐ **Send accurate implant information (system, size, platform)**
 - ☐ Surgeon report - if placed by surgeon
 - ☐ Manufacturer information - if placed by clinician
 - ☐ Product sticker with reference numbers
2. ☐ **Radiograph of scan body/impression coping to confirm seating**
3. ☐ **Scans**
 - ☐ A full arch scan is preferred. If not, scan to at least the midline
 - ☐ Accurate bite with scan body out
 - ☐ Opposing
 - ☐ Gingival mask scan for best emergence profile
 - ☐ Scan gingiva with healing cap/scan body out
 - ☐ If encode, ensure all identification markings are visible and no tissue covering
 - ☐ If abutment level scan, good retraction with detectable margins
4. ☐ **Photos if warranted**
5. ☐ **Details for final product**
 - ☐ OEM vs Compatible
 - ☐ Abutment type (Custom, stock, ti-base)
 - ☐ Crown material (PZ Zirconia, EZ Zirconia , PFM, e.max)
 - ☐ Shade information
6. ☐ **Is a call/consult with clinician required?**
7. ☐ **Due date information/verification**
 - ☐ Protocol for Maverick implants is 3 weeks
8. ☐ **Proper Shipment**
 - ☐ Label bites
 - ☐ Secure small pieces
